

**Youth for Ecocide Law,**  
in association with Stop Ecocide International,  
are hosting a '**High Level Youth Briefing**'  
on 12th September.

This is an amazing opportunity for all global Youth and Youth networks to hear from: **Philippe Sands QC**, UCL / Matrix Chambers and Co-Chair of the Independent Expert Panel on the Legal Definition of Ecocide, **Jojo Mehta**, Co-Founder and Exec. Director, Stop Ecocide International and **Amalie Wilkinson**, Co-lead of Youth for Ecocide Law.

The briefing will cover; the ecocide definition, the International Criminal Court (ICC) route, incredible global developments, states leading in this conversation, Youth actions internationally (Including the massive Walk to Stop Ecocide as part of the climate march on 23rd September as part of New York Climate Week) and much more...

This will be a really deep dive opportunity to learn more about the ecocide law narrative and a safe space to ask difficult questions, so that any young person, from anywhere in the world, can confidently talk about ecocide law as part of their 'information tool kit', no matter what network that they are part of.

**Global youth: You are all invited - Please come! Please share!**
